Getting rave reviews from our Alum and Friends Cross Cultural Path! Reasonably priced, EMU atmosphere, these trips promise to make life changing in many ways. You won't find this kind of travel from your typical travel agency. Open to alumns, current and former parents and friends of EMU. Plan now to make one of the upcoming trips: Cuba, April 1 - 10, 2021 - FULL Pilot Route Cuba is a country like no other - World Heritage sites, beautiful beaches, old cars, interesting politics and flexible, friendly people. Still, many U.S. citizens have not had a chance to visit Cuba due to the nearly 60-year embargo and current U.S. policy restricting travel. Travel related to the activities of educational establishments is still available, which makes this possible in the 3rd EDI. During your stay in Cuba, you will have the opportunity to enjoy a mini-cross culture spent in Havana and the countryside. There will be lectures from Cuban experts, visits to health and education programs, domestic stays and several groups of reflection time. Most importantly, you can experience Cuba's rich musical, dance, artistic, food and warm hospitality. Included in the itinerary is a tour of the Mennonite-related Nazaren Hospital, a world-famous Hadassah hospital near Jerusalem, and met with brave individuals who cross cultural and religious divisions in order to bring healing and hope to the peoples of Israel and Palestine. Then walk through the medieval towns, which were unique in the Middle Ages, where Jewish, Muslim & Christian scholars all mingle, and every tradition left an imprint in Spanish culture. We'll learn about the rise of Catholic Spain as we visit Toledo and Madrid, where we'll tour world-class art museums such as the Prado, the National Palace, the Plaza Mayor and the famous Mercado San Miguel, where you can taste and see some wonderful tapas. New Spain has a unique, innovative tapas tradition where you have the habit to walk from one tapas bar to the next during a comfortable evening, sampling as many varieties as you can! We travel on the modern rail system, walking through various urban neighbourhoods and scenic mountain trails. Like much of Europe, Spain is an interesting place to learn how a traditionally Catholic/Christian society becomes a non-religious/post-Christian culture - and we spend time visiting Spanish anabaptist leaders who work in the middle of this dynamic. Expect day and day sunshine, encounter people whose lives have lived outside on the streets, plazas and tapas bars, and old Spain and new Spain converge on almost every corner and byway. More details to come once the details of the trip have been finalized. This tour is led by Byron Peachey and Deanna Durham, former and current intercultural leaders to Spain.
